

KK-FRP AND KONCRETE PRODUCTS

Mr. Rajeev Aggarwal - MD
KK-FRP And Koncrete Products Pvt. Ltd.

KK FRP AND KONCRETE PRODUCTS are pioneers in the manufacture of Precast Concrete as well as recently developed FRP Fibreglass Manhole Covers and Storm water Gratings.

Our Products are extensively used in roads and footpaths.

Poor drainage has adverse impact on road and road pavements. The research studies have pointed out concerns of bad highway drainage systems and their affect on road conditions. The area of drainage is of great concern for road engineers as poor drainage of water has very adverse concern on road life. It causes road failure in different ways as well as economic hard ship on

inhabitants of affected communities with a devastating effect on health due to mosquito breeding on accumulation of water and due to damage of road leading to pot holes and resultant accidents and loss to life.

Therefore effective engineering practises should be considered necessary during design, construction and management of roads system by providing proper drainage systems.

Our Precast Concrete/FRP Storm water Gratings covers are used on storm water collection chambers made at road and footpath edges which facilitates proper rain water collection thereby minimizing water accumulation on roads. They are sturdy enough to withstand heavy traffic conditions.

Manhole covers are provided on foot paths at storm water drainage pipe lines. Our covers are sturdy and light in weight so as to facilitate easy opening for maintenance and cleaning. Suitable lifting arrangement is provided in cover and proper taper is provide in covers to facilitate easy removal of covers from frames and prevention of jamming of cover in frame.

Manhole covers are also provided on sewage lines on main roads. They are sturdy enough to take loads upto 40 Tons.

Theft and pilferage of Cast Iron/ Ductile Iron manhole covers is a nuisance, the whole world is facing. An open manhole in the road carriage way and footpath can cause accidents and loss to life.

The Municipal Corporations had lot of problems with Cast Iron covers due to theft and associated accidents. But since the introduction of concrete / fibreglass covers since last three decades they are very relieved. Our Covers are theft proof because of NIL scarp value, hence in demand as replacement of Cast Iron covers.

We also provide recess covers for roads and footpaths where tiles can be put to match the road surface tiles.

Our products are available in Light, Medium, Heavy and Extra Heavy Duty categories of load capacities from 2.5Tons to 40Tons as per IS standard IS:12592, IS:1726 and BSEN 124.
